Need to replace failing Splices, Deadends or Suspension Clamps?  
Need to up-rate lines? Use ClampStar and do it Faster, Safer,  
Easier.....

- Splice replacement no longer necessary!
- Installs in a few minutes with 1 man and a Hot Stick!
- No Mechanical Grips, Come-Alongs, Jumper Cables or Cutters needed
- Restores electrical and mechanical integrity on weathered conductors
- Handles both Transmission and Distribution applications
- Significantly safer than traditional splice replacement
- Increase ampacity / Up-rate systems
- Exceeds ANSI C119.4 Class AA EXTRA HEAVY DUTY!

Video demonstration available by clicking here:
